A BUNGALOW COLONY

william H. Hall, Jr., Sells a New Private House in West Eighty-sixth Street -Sale of a Plot of About Ten Lots at Riverside Drive and 127th Street. Yesterday's brokerage dealing was limited in volume and of the commonplace order. The West Side was comparatively well represented. A purchase of a plot of tan lots at Riverside Drive and 127th street foreshadows an important building operation in the near future. A long list of offerings in the auction room elicited so little effective bidding that most of the property was struck down to parties in Among the constructions for which plans were filed was a new loft building in West Twenty-eighth street. A fair unt of construction work was planned in The Bronx, mostly two family dwellings.

WEATHER FOR COTTON STATES.

For North Carolina, local showers to-day, slightly cooler in the interior, except extreme western portion; generally fair to-morrow; variable winds.

For South Carolina, Georgia, castern Florida, western Florida, Alabama, Mississippi and Louisiana, occasional local showers to-day and probably o-morrow: variable winds. For castern Texas, occasional local showers

to-day: partly cloudy to-morrow; variable-winds. For Western Texas, local showers to-day, except fair in extreme southern portion; fair to-morrow.

For Oklahoma, Arkansas and Tennessee, generally fair to-day and to-morrow.

Many people thought a Government condition of 35 per cent. had been discounted and the market ignored private reports of from \$3.8 to \$6.3. It was influenced more by two things than anything else and advanced first because the Journal of Commerce in its monthly report stated the condition at only monthly report stated the condition at only \$1.4, against 79 last month and 74.2 last year, whereas a much more favorable statement had been very generally expected. Second, because this report was taken as being the forerunner of a Government report of very similar tenor. The report of the newspaper in question and that of the Government are apt to be very close together. The effect, therefore, was to put up Liverpool and American vices. Well Street shorts here were ican prices. Wall Street shorts here were covering in October. They are supposed to have a very big line out in that month. What with covering and some scattered buying for long account prices were easily advanced, and but for the narrowness of the speculation

long account prices were easily advanced, and but for the narrowness of the speculation the rise would probably have gone much further. Yet the weather in the main was favorable, beneficial showers fell in Texas, Liverpool if stronger than expected was very quiet on the spot and the dulness of the speculation must certainly be reckoned as a factor militating against any pronounced rise at the present time. It is well to bear in mind, however, that although the weather in recent weeks has been favorable the most trustworthy reports concede that the plant is small. It is true that it is strong and healthy, that the fields are well cultivated and that boil weevil are less numerous than they were a year ago. But the present smallness of the plant even where it looks its best and the necessity of recent replanting in flooded discricts all tend to increase the danger from frost next fall, while it would also be unwise to ignore the fact that the two critical months of July and August are still to be faced.

These reports on the crop condition have been issued of late: Theodore H. Price \$4.2: Norden, \$4.5; Burch, \$3.8; Gies, \$5.3, and Journal of Commerce, \$1.4. Seventy-eight members of the New York Cotton Exchange guessed the condition to be given in the Government report to-day at an average of \$35/per cent.; range, \$1 to \$6.

Spot cotton was unchanged. Middling, 11.50c. The Southern spot markets were unchanged to \$6. lower. Galveston, 11 \$-160.; New Orleans, 11 \$60. Mobile, 113/cc.; Savannah, 115/cc., and Charleston, 11c.
